Who we are

TPG Advisory Services and **D R A K O P O U L O S** law firm have developed jointly a comprehensive but pragmatic approach for compliance with GDPR in Romania.

TPG Advisory Services

TPG Advisory is the advisory arm of TPG Group. The company was set-up in 2009 and it provides financial and business consultancy services. Currently TPG is in process of merger with Fidexpert and the new company will join **tgs Global** network.

Our acceptance as a member of **tgs Global**, which will be formalised by the end of the year, will enable us to draw from a wealth of experience to serve our clients.

tgs Global

tgs Global is one of the top 20 international accounting, auditing and consulting networks with presence in 52 countries.

For further information on **tgs Global** refer to www.tgs-global.com

D R A K O P O U L O S

Drakopoulos has been providing consulting and legal services to businesses since 1992. The firm has grown considerably since formation, offering today centralized, streamlined services across 11 countries in Southeast Europe via 4 main offices in Athens, Bucharest, Tirana and Larnaca. A team of highly skilled lawyers provides professional services and legal expertise, responding efficiently to complex legal problems with flexible commercial solutions, helping clients to achieve their business objectives.

What GDPR is

- GDPR is an acronym which refers to the General Data Protection Regulation (Regulation (EU) No. 2016/679).
- It relates to the legal framework for the processing of personal data, i.e. any information relating to an identified or identifiable natural person (“data subject”), in all European Union Member States and replaces the existing legislation.
- The new regulation is binding in its entirety and directly applicable in all European Union Member States.

27/04/2016
The European Parliament voted for the GDPR Regulation 697/2016

25/05/2018
The GDPR entered into force

GDPR Implementation in your organisation

We are at your disposal, in order to provide you with the optimal comprehensive technical, legal, and administrative solutions and services customized to your own business, for the implementation of the GDPR.

To which organisations it applies to:

- The regulation refers to all organisations, public or private legal entities, or self-employed individuals, who are in any way managing personal data of partners, customers, suppliers, employees and/or other natural persons.
- **GDPR applies to all of us**
- The new regulation increases significantly the obligations regarding the protection of personal data, while simultaneously provides for significant fines in case of non-compliance.
- Administrative fines by the Supervisory Authority shall be up to either €20 million or 4% of the total worldwide annual turnover of the preceding financial year, whichever is higher.

Methodology for the compliance with the GDPR

We provide services to support organisations to comply with the GDPR, covering all the aspects including processes, policies and manuals, technical, legal and administrative.

Our main proposal

Due to the tight time constraints, a team including experienced auditors, consultants, IT experts and lawyers commits to:

- Map the data and their flow in your organisation
- Review policies and procedures
- Carry out an Initial Privacy Impact Assessment
- Draft a Gap Analysis Report and recommendations for effective compliance with the GDPR, based on best practices and policies of the industry.

The following steps

Our main proposal will allow you to implement policies, controls, and a new organizational structure to comply with the GDPR requirements by ensuring that the next steps could be implemented either by us or internally by the organization using its own resources based on our recommendations and continuous support.

- Design of policies, procedures and prevention controls
- Implementation of managerial, legal and technical actions
- Record of Processing Activities
- Final privacy impact assessment
- Compliance audit

Continuous support

We provide continuous support:

- Data Protection Officer (DPO) support
- Personnel awareness and training
- IT support
- Assistance in conducting internal audits for the implementation of the GDPR risk assessment
- Communication with the Supervisory Authority
- Legal support in relation to the GDPR
